Could Iridia Be Close to Next Highest CST Math Level?

"What do I have to do to get there?" asked Iridia. "Do they have tutoring on the Internet? Can my parents help me? Can I use a calculator? Can I count on my fingers?" Current math level is Basic Level.

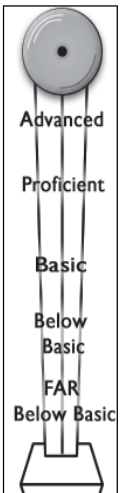

Florentina, Ricardo, and Leilani

Desperate to Tell TRUTH!

When Florentina, Ricardo, and Leilani met with Iridia's counselor, Ms. M. Perez, they were desperate to tell the truth about what they had seen with their own eyes! They admitted that Iridia was innocent, *but that others* in the class finished the test so fast that it was obvious they couldn't have tried every question. It's obvious that when a student finishes a 75 question test in less than 15 minutes that he or she will not go up a level.

Iridia Hunts for Secrets of CST Science

"I've wanted to be proficient for years," cried Iridia, "but every time I try, it gets away from me. I need the secret." Current CST science level is B.

Iridia Hernandez Juarez Hunted by FBI, CIA, and LAPD for Alibi during CST Last Year

No records are available to prove whether Iridia was on planet Earth during last CST testing last year. Witnesses say she was hiding at the burger place down the street from Francisco Bravo Medical Magnet.

Waiting for lunch is not a problem for these Francisco Bravo Medical Magnet ladies. They did their best on CST so that they know how well they learned in class. The waiter walks them to class, carries their books, and helps with homework.

Play The One Million Dollar Quiz!!

- 1) A large pizza has 12 slices. How many slices each for Florentina, Ricardo, and Leilani?
- 2) A character in a novel can't decide to talk to a girl. This would be an external? or internal? conflict?

Isabel Curiel Hidalgo Proficient on CST English by Reading Comic Books!

When the police raided Isabel's bedroom, they found piles of old comic books. "I love to read Spiderman and then take a test on it," she told Francisco Bravo Medical Magnet's principal. Isabel's English CST is Way above average

Another invasion from planetoid CST. It happens every year. Unsuspecting Francisco Bravo Medical Magnet students think they can chill during the CST test without realizing they are being watched. Those earthquake drills are really an opportunity for aliens to crawl inside your CST brain.

Play The One Million Dollar Quiz!!

- 1) If Mr. L. Moreno spends only 10 minutes with each student, how many hours would it take to talk to 300 students?
- 2) Jacqueline, Isabel, and Elvira were snapping up number two pencils. "snapping up" means (A) giving up, (B) destroying, (C) throwing out, (D) buying.

Could Isabel Be Close to Next Highest CST Math Level?

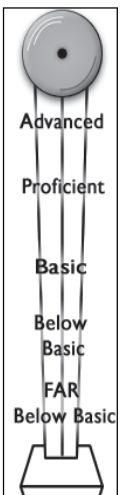

"What do I have to do to get there?" asked Isabel. "Do they have tutoring on the Internet? Can my parents help me? Can I use a calculator? Can I count on my fingers?" Current math level is Basic Level.

Jacqueline, Isabel, and Elvira Desperate to Tell TRUTH!

When Jacqueline, Isabel, and Elvira met with Isabel's counselor, Mr. L. Moreno, they were desperate to tell the truth about what they had seen with their own eyes! They admitted that Isabel was innocent, *but that others* in the class finished the test so fast that it was obvious they couldn't have tried every question. It's obvious that when a student finishes a 75 question test in less than 15 minutes that he or she will not go up a level.

Is Isabel Really Proficient in Science?

Most people were in shock when they saw Isabel on the news last night. Isabel was getting an award for being proficient in CST Science. "I knew she could do it!" exclaimed her science teacher. Current CST science level is P.
